THE POINT(S) AT WHICH FISH AND FISH PRODUCTS MAY ENTER A CHAIN OF CUSTODY

The scope of this certification ends at the points of landing. Downstream certification of the product will require appropriate certification of storage and handling facilities at these locations.

In order for subsequent links in the distribution chain to be able to use the MSC logo, jack mackerel products must enter into a separate chain of custody certification from the point of landing forward.

The subsequent links must be able to prove that they can trace jack mackerel products back to the permitted vessels which landed the product.

The main points of landing for this fishery are all major Chilean ports.

THE PARTIES, OR CATEGORIES OF PARTIES, THAT ARE ENTITLED TO USE THIS CERTIFICATE TO ENTER FISH FROM THE CERTIFIED FISHERY INTO CERTIFIED CHAINS OF CUSTODY

The eligible parties to use the fisheries certificate are vessels owned by members of SONAPESCA F.G.
