Fishing method or gear:
Fishing fleets:

Demersal trawl.
The UoC is restricted to a list of
vessels facilitated by the client. This
list will be updated, and changes
communicated to the CAB.

Entities or categories of entities

Camanchaca Pesca Sur, S.A. is the owner of the certificate. The Unit of Assessment comprises 3 vessels owned by Camanchaca. In addition, the client confirms that 9 other vessels are eligible to fish as part of the UoC. An updated list is published annually on the MSC website with the other eligible vessels for every fishing season.

Only yellow squat lobster, red squat lobster and nylon shrimp caught in the manner defined in the proposed UoCs and traced and segregated according to the description provided in the respective PCRs are eligible to be sold by the Camanchaca Pesca Sur as MSC-Fisheries certified product and enter further Chain of Custody (CoC) without restrictions. Chain of Custody shall commence before the change of ownership. The traceability of the product is covered by the certificate of the fishery until the entrance in the processing plant following the first point of unloading. Nylon shrimp, yellow squat lobster and red squat lobster shall be landed in authorised ports and subject to inspection by Sernapesca. The Camanchaca fleet (and the other eligible vessels when operating for Camanchaca) are normally landing at the ports of San Antonio and Tomé, although they might use other authorised ports if designated by Camanchaca.
